The Basic Collection

The Basic Collection is simply that, basic decorations; for those times that you just want a minicake with no other alternative meaning. Just the desire for something sweet and delicious.

The Rose Collection

The Rose Collection is our more elegant selection. Choose 2 to 3 rose petal color and the specific meanings that you want those colors to express. We will put the rose petals on the minicakes and write the meanings on the box so the recipient understands how you truly feel about them. These elegant cakes are perfect for special occasions and special people.

The # Collection

The # (hashtag) Collection is more modern and up to date. Convey your feelings through popular social media tags, such as #bff and #mcm. This collection is fun and current and a great way to say something cute and sweet, literally.
